AUTOBOX® ABX-500

AUTOMATED PIPE CLEANING SYSTEM

The Autobox ABX-500 is a portable, air powered hose control device. The Autobox ABX-500 features adjustable hose feed rate and can pass hose couplings for continuous, safe operation and efficient cleaning. Traditional methods require the operator to hand feed a hose, which can cause streaking, fatigue and increased safety concerns.

UPGRADES:

- Now uses the same lightweight control box as the ABX-2L making it easier for contractors to manage and maintain their fleet of Autobox equipment
- Features enhanced system controls for smoother hose deployment at slow speeds

VERTICAL APPLICATIONS

Can be used in vertical applications such as cleaning tanks, vessels and pipes.

SPECIFICATIONS

HOSE FORCE	Up to 200 lbs (90.7 kg)
FEED RATE	1–30 ft/min (0.3–9.1 m/min)
HOSE SIZE	0.56–1.75 in. (13–44 mm OD)
WEIGHT	90 lbs (41 kg)
