BANSHEE BEETLE

BT18

BT12

Short Banshee design to allow the tool to pass elbows and bends in Process Piping, PDI Piping, and U-Tubes in Bundle Cleaning.

The shortest rigid length configuration, including the hose crimp, is made with 3mm hose and 1/16" pipe thread end. The 1/8" pipe thread on 5 mm hose is the next shortest configuration.

BANSHEE BEETLE TWO SIZES AVAILABLE

BT18:

- Tool Dimensions: 18 mm Ø (.69") 1.55" length (39 mm)
- Pressure and Flow: "A" (unplugging style) head has flow ranges of 8.5–9.8 gpm 10K–15K; 9.8–1 gpm 15K–20K
- Head Pattern: 1 @ 25, 35, 60° (forward jets) and 2 @ 135° (back/pulling jets)
- Pulling Force: 10.5 pounds at 15K
- Inlet Types Available: P1, P2, BSPP2, MPL6, MPR6, MPL4, MPR4

BT12:

- Tool Dimensions: 12 mm Ø (.47") 1.27" length (32 mm)
- Pressure and Flow: "B" (unplugging style) head has flow ranges of 6.5 – 7.5 gpm 10K–15K; 7.5–8.5 gpm 15K–20K
- Head Pattern: 1 @ 25, 35, 60° (forward jets) and 2 @ 135° (back/pulling jets)
- Pulling Force: 9 pounds at 15K
- Inlet Types Available: P1, M7, MPL4, MPR4
